Education

University of California, Berkeley

Berkeley, CA

B.A. in Cognitive Science & Intended B.A. Data Science

Aug 2025 - May 2029

Relevant Coursework: Data C8: Foundations of Data Science, Cogsci 1: Introduction to Cognitive Science, CS 61A:

Structure and Interpretation of Computer Programs, Psych C61: Brain, Mind, & Behavior, Linear Algebra, CS61B: Data Structures, Cogsci 131: Computational Model of Cognition

Clubs & Organizations: UX @ Berkeley - UX Designer, Web Development at Berkeley - UX Designer

California High School

San Ramon, CA

GPA: 4.0

June 2025

Relevant Courses: AP Computer Science A, AP Computer Science Principles, AP Psychology, Computer Graphic Arts

Professional Experience

Lawrence Berkeley National Lab

Berkeley, CA

Experience In Research Intern

June 2024 - July 2024

- Designed and prototyped a K-12 educational website supporting ESnet outreach initiatives.
- Created wireframes and high-fidelity prototypes in Figma.
- Developed responsive webpages using HTML and CSS.
- Conducted field and user research
- Improved accessibility for educators and students from underrepresented communities.

Atlas Agent

Berkeley, CA

UX Consultant

August 2025 - December 2025

- Conducted user research for an AI-powered real estate platform.
- Designed mobile workflows for CMA reports, AI chatbot interactions, team collaboration, and transaction management.
- Produced wireframes and interactive prototypes in Figma.
- Collaborated with teammates to iterate on user feedback and improve usability.

Newrium Foundation

Berkeley, CA

UX Consultant

August 2025 - December 2025

- Designed a modern educational website promoting financial literacy and youth empowerment.
- Created low-, mid-, and high-fidelity wireframes and interactive prototypes.
- Built a reusable design system for engineering implementation.
- Designed engaging interfaces using animation, color, and accessibility best practices.

The Coder School

San Ramon, CA

Code Coach

August 2024 - October 2024

- Delivered personalized Scratch and Python lessons to elementary and middle school students.
- Designed project-based coding activities tailored to individual learning styles.
- Encouraged creativity through game development and interactive programming projects.
- Documented student progress and adjusted lesson plans to maximize learning outcomes.

Aveti Learning

Remote

Seasonal Digital Design Intern

September 2023 - June 2024

- Designed quarterly and annual newsletters for educators and stakeholders.
- Collaborated across teams to organize content, timelines, and publication schedules.
- Applied project management practices to coordinate meetings and deliverables.

Projects & Certifications

Slice Safe - 2nd Place Hackathon

April 2024

- Designed the user interface for a disguised personal safety application using Figma.
- Collaborated with a three-person team to prototype emergency activation, live location sharing, and audio recording features.
- Began iOS implementation using Swift and Xcode.
- Awarded 2nd Place at the SFHS x Girls Who Code Hackathon.

Website/App Designs

2025-2026

- MatchaMap: Redesigned website navigation and information architecture in Figma, creating wireframes and high-fidelity prototypes to improve usability, visual hierarchy, and user experience.
- KMJewels: Designed an end-to-end e-commerce experience in Figma, including branding, product pages, and checkout flow while applying accessibility, typography, and color system principles.
- Personal Portfolio Website: Designed and prototyped a personal portfolio website from low-fidelity wireframes to high-fidelity mockups in Figma; currently implementing the responsive design using React and GitHub Pages.

CMU Venture Competition Prototype

2024

- Collaborated on product concept development.
- Created wireframes and polished user interfaces using Figma
- Designed high-fidelity prototypes for presentation.

Coursera: Introduction to User Experience

2024

- Completed UX training covering user research, wireframing, prototyping, usability testing, and the end-to-end design process.

GirlsWhoCode Summer Immersion Program

2024

- Completed Web Development training by building responsive websites using HTML, CSS, and JavaScript through hands-on front-end web development projects.

Volunteer Work

Inspirigirl

Remote

Intro to Python Summer Course Instructor

August 2024

- Taught a weekly Introduction to Python course, leading live virtual classes for students across the U.S. and internationally.
- Developed the course curriculum by creating lecture slides, coding assignments, quizzes, and hands-on projects covering Python fundamentals.
- Supervised teaching assistants and provided personalized code reviews and feedback to support student learning
